

Remarks

For the convenience of the Examiner, and in response to Paper No. 14, a substitute specification is enclosed in which amendments are made to insert in the specification sequence identifiers congruent with the sequence listing submitted February 15, 2002, and (at pages 17-19) to describe the sequence identifiers. Table 4 is differently formatted to allow insertion of the sequence identifiers. The sequence identifiers in informal Figures 5, 12, 22 and 23 have been completed or added (and described in the Brief Description of the Figures). No new matter is added by these amendments. The substitute specification contains no new matter.

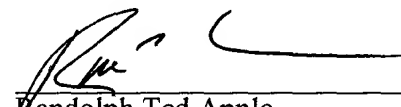

Attached hereto is a marked-up version of the substitute specification showing all the changes to the specification of record. The Examiner's attention is drawn to pages 1, 9, 15, 17, 18, 19, 32, 82 and 84-86 (location of amendments).

In the unlikely event that the transmittal letter is separated from this sequence listing and the U.S. Patent Office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorize the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this sequence listing to our **Deposit Account No. 03-1952** referring to docket number **212302001100**. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Respectfully submitted,

Dated: September 20, 2002
